## Product Highlights

### ◆ Dual Display

The TC series temperature controller has separate displays for Process and Set Values. The PV display is in Red LED & SV display is in Green LED

### ◆ SSR/ Relay Outputs

Selection of either Voltage driver for SSR output or 5A Relay output.

### ◆ Auto-tuning PID Controller

Manual and Auto-tuning PID control options are available. To enable Auto-tuning function press the Up arrow key after setting SV for 6 seconds. The AT indication LED glows to show AT progress. Once the light goes off, auto-tuning is complete.
